Dear SAAA Members and Friends,

Happy Lunar New Year!

Welcome to the first issue of SAAA Quarterly "Perspectives" 2025 – a newsletter aimed at providing you with the on-goings in our Aviation Industry.

We had a wondrous festive celebration with our members and friends, welcoming 2025 with a spectacular dragon dance.

In collaboration with CAAS and IATA, we recently hosted the Safe Transport of Dangerous Goods by Air workshop on 24 March 2025. It involved presentations from expert speakers on the safe transport of Dangerous Goods and concluded with an interactive Q&A. It was an honour to welcome international presenters, including Mr Ben Firkins, Head of Cargo Safety and Dangerous Goods at IATA, and Mr Trevor Howard, Vice President of Safety, Standards & Regulatory Compliance at Emirates and Chairman of the IATA Dangerous Goods Board.

Let's look forward to more events rolling out in 2025!

Thank you.

Warmest Regards,
"Perspectives" Editorial Team

Preventing Undeclared Dangerous Goods Incidents in Air Transport: Identifying Hidden Dangerous Goods

Ensuring the safety of air cargo transport is crucial, and it hinges on accurate identification of dangerous goods and effective communication among transport chain entities. Past incidents have shown that shippers may provide ambiguous description of goods to freight forwarders leading to undeclared dangerous goods being offered for transport by air.

Hidden dangerous goods behind vague descriptions

Shippers sometimes provide unclear, abbreviated or generic descriptions of goods intended for transport by air. For example, shippers may generically describe items unloaded from ocean vessels as ship's spares instead of providing an itemised list of descriptions. Other generic descriptions used by shippers include aircraft parts, e-commerce, courier articles and electronic components. It is not uncommon for cargo acceptance and security screening staff to detect hidden dangerous goods, such as gas cylinders, lithium batteries and flammable substances, hidden behind such descriptions.

Review itemised description of goods to detect hidden dangerous goods

To prevent hidden dangerous goods from inadvertently being offered for transport in general cargo consignments, staff of freight forwarders should diligently review description of goods provided by shippers in its shipping / commercial invoice or packing list. When shippers provide vague or incomprehensible descriptions, staff of freight forwarders should seek clarification with shippers to determine the true nature of the goods and verify that they are not classified as dangerous goods prior to offering for transport by air.

NO	Code	Description	Qty	Unit
		DKVE002223		
1		ATT ELECTRIC MACHINERY - 1 MOTOR	1	CTN
2		ANCHOR MARINE - STORE (EEDS CYLINDER VALVE / SPAR VARNISH GLASS / LEATHER POUCH WITH BELT / BUOYANT LINE FOR LIFEBOUY)	1	PLT
COUNTRY OF ORIGIN: SINGAPORE				

For consignments containing various articles, staff of freight forwarders should advise shippers to provide an itemised list of description of goods for its review and verification. Generic descriptions should be avoided.

Freight forwarders should establish procedures requiring its staff to review description of goods on invoices and packing list to identify hidden dangerous goods. It should also ensure that its relevant staff receive training and assessment in the competencies necessary to implement its procedures. The continued and effective implementation of such procedures will also require freight forwarders to provide adequate supervision and monitoring processes on a regular basis.

Conclusion

In conclusion, ensuring the safety of air cargo transport requires diligent efforts to identify hidden dangerous goods. Freight forwarders play a crucial role in this process by thoroughly reviewing itemised descriptions of goods, seeking clarification from shippers when necessary, and avoiding generic descriptions. Establishing robust procedures, providing training, and maintaining supervision are essential steps to prevent undeclared dangerous goods incidents. By adhering to these practices, we can enhance the safety of air transport.

Risk Control Measures for Vehicular Safety

Vehicular incidents is one of the top injury causes in the Transportation and Storage (T&S) sector. The WSH Council urges T&S companies to exercise vigilance to avoid vehicular incidents. While not exhaustive, the following risk control measures are a good starting point for companies to ensure that their workplace is safe for their workers:

- **Traffic Management Plan (TMP):** Establish and implement a TMP at the workplace. The TMP should cover factors about the vehicles (type, safety devices), work environment (work activities, traffic conditions, environmental conditions), and drivers (health conditions, training and competency, behaviours and habits). Educate and remind all workers to adhere to the TMP.
- **Driver safety:** Allow only drivers with a valid license to operate vehicles. Remind drivers to adopt safe driving habits, such as keeping within speed limits and to remain focused on the road. Drivers should only park their vehicles at designated areas.
- **Vehicle safety:** Follow the manufacturer's or supplier's recommendations for regular maintenance and servicing of vehicles, and refrain from installing unauthorised modifications like forklift attachments. Remind drivers to perform daily pre-operation checks before driving off. Consider installing safety technology on vehicles, such as presence detectors, reverse cameras, speed limiters, and driver fatigue monitors.
- **Workplace traffic controls:** Clearly demarcate pedestrian walkways and vehicle driveways, ensuring that they are free of obstructions. Provide sufficient lighting to ensure visibility at all times. Install highly visible markings and traffic signs to remind road users of traffic safety rules.

Resources

Workers are our eyes on the ground. To prevent injuries, empower them to report any unsafe situations that they see around the workplace. Scan the QR codes to find out more about:

EVENTS

JBCCCI 80th Anniversary Celebration & 2025 Chinese New Year Gala Dinner

The Johor Bahru Chinese Chamber of Commerce and Industry (JBCCCI) hosted the 80th Anniversary Celebration & 2025 Chinese New Year Gala Dinner on 7 February 2025, at the Austin International Convention Centre (AICC). This momentous event marked the chamber's 80th anniversary and provided a platform to extend festive greetings to all sectors of society.

YAB Dato' Onn Hafiz, Chief Minister of Johor, officiated the celebration. The event was also graced by other distinguished guests, including Johor state executive councilors, federal and state legislators, government officials, leaders from both international and local chambers of commerce, and representatives from various business and cultural organizations. Additionally, it served as JBCCCI's annual Chinese New Year gathering, bringing together government and business leaders to celebrate the festive season while promoting stronger collaboration and communication. Mr Jimmy Ler, SAAA Honorary Secretary, also attended the event in a show of support.

58th War Memorial Service in Commemoration of the Civilian Victims of the Japanese Occupation and Total Defence Day Commemoration 2025

Each year, the Singapore Chinese Chamber of Commerce & Industry (SCCCI) organizes the War Memorial Service on the 15th of February to honor and remember the civilians who lost their lives during the Japanese Occupation of Singapore. This serves as a reminder to cherish our peace and protect the nation's security. Mr Jimmy Ler, SAAA Honorary Secretary, attended the 58th War Memorial Service.

In line with Total Defence Day, "Exercise SG Ready 2025," organized by MINDEF in collaboration with the Energy Market Authority, took place this year over a two-week period. The exercise focused on enhancing Singapore's ability to respond to power disruptions and cyberattacks, bolstering the readiness of both individuals and organizations for potential crises. As a key event marking SG60, "Exercise SG Ready 2025" stands as a significant demonstration of the need to remain vigilant. All businesses are encouraged to actively improve their preparedness, strengthen cyber resilience, and develop comprehensive Business Continuity Plans (BCP).

As Singapore celebrates SG60, it is also a time of reflection on how Singapore had united as one nation over the past six decades through numerous crises - emerging stronger each time, from the racial riots in the 1960s, to the financial crises in 1997 and 2008, and most recently, the COVID-19 pandemic. Through all of these challenges, the shared values of unity and mutual support have remained the bedrock of the nation's strength.

Singapore Business Federation Singapore Budget Symposium (SGBS)

The Singapore Business Federation (SBF) hosted the Singapore Budget Symposium (SGBS) on 19 March 2025 at the Marina Bay Sands, for a conversation on Budget 2025.

The symposium provided a unique platform for participants to receive first-hand updates and exchange ideas on key Budget measures for businesses. The exclusive Budget 2025 conversation with Prime Minister Lawrence Wong, Minister Chee Hong Tat and Minister of State Alvin Tan enabled the attendees to gain insights into Singapore Budget 2025 and the support available for businesses to foster growth and be future-ready. This was followed by a plenary discussion on strategies businesses can adopt for the year, presented by strategic partner DBS Bank and knowledge partner PwC Singapore.

AI Festival Asia 2025: Unleashing The Power of AI, Digitalisation, and Cybersecurity to propel SMEs into the Future

The AI Festival Asia (AIFA) 2025, organized by the Association of Small & Medium Enterprises (ASME) in collaboration with the Lifelong Learning Institute (LLI), was set to be a transformative event for Small and Medium Enterprises (SMEs) looking to go beyond survival and thrive in today's fast-evolving, digital-first world.

With the theme "Evolve, Digitalise, Secure," the two-day flagship event aimed to equip businesses with the latest tools to harness AI, drive digital transformation, and strengthen cybersecurity-key components needed to stay competitive.

AIFA 2025 offered the perfect platform for businesses to not only survive but excel, helping them explore AI applications within their industries, learn from other SMEs, and embrace digital transformation. The festival concluded with ASME's annual Inter-Association Networking Night (IANN), a high-profile event that gathered together business owners, entrepreneurs, and Presidents of Trade Associations & Chambers of Commerce to share insights, inspire change, and shape the future of SME success.

EVENTS

Changi Airport's Annual Airport Celebration 2025

PHOTO: CAG

Changi Airport Group (CAG) hosted the Changi Airport's Annual Airport Celebration 2025 at Resorts World Sentosa Convention Centre on 20 February 2025.

In recognition of outstanding passenger service, Changi Airport's Annual Airport Celebration awards ceremony honoured individuals and teams from the ONE Changi community for their dedication to enhancing the passenger experience. Their commitment to going the extra mile embodies the core values of the Changi Service DNA, consistently delivering positive and surprising experiences for passengers.

This year, to recognise the contribution of airside workers to passenger experience through their crucial role in maintaining efficient and safe airport operations, two new award categories were introduced: 'Outstanding Airside Staff' and 'Outstanding Airside Team.' These are part of the 20 service awards presented across seven categories.

The award recipients were acknowledged for their exceptional dedication, demonstrating initiative, compassion, and creativity in challenging situations. The comprehensive selection process considered passenger feedback and appreciation notes, underscoring their significant contributions to enhancing the Changi service experience.

Safe Transport of Dangerous Goods Cargo by Air Workshop

SAAA, in collaboration with CAAS and IATA, co-hosted the Safe Transport of Dangerous Goods Cargo by Air Workshop at the Civil Service Club @ Changi I on 24 March 2025. It was an honour to welcome international presenters, including Mr Ben Firkins, Head of Cargo Safety and Dangerous Goods at IATA, and Mr Trevor Howard, Vice President of Safety, Standards & Regulatory Compliance at Emirates and Chairman of the IATA Dangerous Goods Board.

The event was a great success, with over 100 delegates in attendance. Key topics covered included preventing undeclared Dangerous Goods incidents, leveraging IATA Guidelines for improving safety in Dangerous Goods compliance and management, the SAAA-IATA CBTA Excellence Centre, and best practices shared by industry experts. The session wrapped up with an engaging and insightful Q&A.

SAAA@SINGAPORE

SAAA CNY Dinner 2025

SAAA kicked off 2025 with a vibrant Chinese New Year celebration, gathering over 200 members and friends for an evening of joy and festivities. The event was honored by the presence of Ms Gan Siow Huang, Minister of State for Education, as the guest-of-honor.

The evening also marked the signing of two significant Memorandum of Understanding (MOUs): one with Institutes of Higher Learning (IHLs) to launch Project IMDD (Inspire, Mentor, Discover, Develop), and another with the Singapore Transport Association (STA) to promote training programs and strengthen community growth through industry collaboration.

It was a memorable night of reconnecting with friends, celebrating the new year, and embracing new opportunities!

SAAA extends heartfelt thanks to Workforce Singapore (WSG) for their continuous support as the event partner, and to SATS Cargo for sponsoring the stunning LED Lion Dance, Declarators Pte Ltd for the fantastic photobooth, and to Mr Steven Lee, SAAA Chairman, for his generous personal sponsorship contribution. A special thank you also goes to our member companies - Alliance 21 Pte Ltd, Brian Mae Pte Ltd, dnata Singapore Pte Ltd, Speedmark Air Transportation Pte Ltd, Silk Express Freight Pte Ltd, UT-WAYS Freight Services Pte Ltd, and Union Air Freight (S) Pte Ltd - and to Tanah Merah Country Club for their generous contributions to the exciting lucky draws. The evening concluded with lively conversations, laughter, and strengthened bonds within the community. Congratulations to all the lucky draw winners!

ITE Aviation Symposium

On 14 February 2025, Mr Roger Chew, SAAA Council Board member, participated as a featured speaker at the ITE Aviation Symposium. During this event, he shared his expertise and insights, contributing to the enriching discussions of the symposium.

SAAA also actively supported the event by joining as an exhibitor. The association showcased its initiatives and commitment to fostering development and innovation in the logistics industry.

SAAA@SINGAPORE

**Best Movers, Best Handyman, and Best Storage Facility
In the @expatlivingsg Readers' Choice Awards 2025**

Shalom International Movers Pte Ltd won the Best Movers, Best Handyman, and Best Storage Facility in the @expatlivingsg Readers' Choice Awards 2025.

This achievement marks another significant milestone in their enduring partnership with ExpatLiving, having been consistently recognized by their readers since 2018. Shalom International Movers Pte Ltd remains dedicated to providing exceptional service to the expat community in Singapore.

SAAA would like to take this opportunity to extend our heartfelt congratulations to Shalom International Movers Pte Ltd for this achievement.

Here's to continued success and growth in the years ahead!

**SATS-SAAA Engagement Session:
BUP Centre Onsite Visit**

The SATS-SAAA Engagement Session took place on 14 February 2025, featuring an introductory presentation about the SATS BUP Centre followed by an onsite tour of the new facility.

The SATS BUP Centre is a specialized facility for managing export BUPs (except: DG BUPs, BUPs for Coolport/ECC, BUPs not in PDs), covering an area of 3,000 sqm. It is equipped with 6 counters and weighing scales, including one for 20ft PD units. The facility also has dedicated entry and exit points. Once accepted, the BUPs will be towed to the airside.

Feedback from the members community regarding the new facility was collected, and SATS will take these insights into account for potential future improvements to the BUP Centre.

SAAA Cargo Services Pte Ltd

HAZMAT TRANSPORT DRIVER PERMIT (HTDP) COURSE

To prepare HazMat Transport Drivers with the knowledge of managing the transportation of hazardous materials and response procedures for any incident.

Who should attend?

This course is meant for drivers who are involved in the transportation and handling of hazardous materials on Singapore roads.

Accreditation & Examination

Singapore Civil Defence Force (SCDF) has accredited SAAA as a training institution to conduct this course. Upon completion of the course and passing the assessment, a Statement of Test Results will be issued for the trainee. It will enable the trainee to apply for a Hazardous Materials Transport Driver Permit (HTDP) from the Singapore Civil Defence Force (SCDF).

For further enquiries, kindly email Ms Peggy Lim at admin@saaa.org.sg or contact her at 6545 5006.

SAAA Cargo Services Pte Ltd

Transport of Dangerous Goods By Air – Initial as per IATA DGR Function 7.3 (Supervised Assessment) Processing or accepting Lithium Batteries Shipments

The course is intended to meet the regulatory training need in compliance with the new training provisions on DGR 63rd edition based on job functions, to be implemented, with effect from 1st January 2023. The course is especially for freight forwarders who are IATA cargo agents applicants willing to fulfill the training requirements for Dangerous Goods Regulations.

Who should attend this course?

- Personnel who wants to attain mastery level at verifying and validating lithium battery shipments during cargo acceptance.

For any training enquiries, please contact Ms Peggy Lim at 6545 5006 or admin@saaa.org.sg.
